2. Make sense of Erasmus+

Erasmus+ is a great opportunity, but also a good deal of work. Moreover, it does not allow for scientific activities. So what we want to do is:

1. Organize the mobilities more professional
2. Develop perspectives for further E+ funding
3. Connect E+ to research projects
2.1. Organization

- Tasks:
  - Fixed application and nomination procedures
  - Acknowledgment of credits
  - Joint mobilities for staff
  - Harmonized courses or modules
- Common knowledge base
- Ensure information flow between partners
2.2. Develop perspectives

- EU-funding perspectives
- Usually centered around teaching and capacity building
- So we need structures that allow for
  - Joint seminars
  - Joint modules
  - Joint thesis supervision
- Aim: maintain and foster eligibility for Erasmus+ funding
2.3. Research projects

- Erasmus+ excludes research activities
- Unspecified calls for mobilities cannot create coherence inside the network
- However, that is what we really want
3. The Idea: CoLABnet

Network for Competencies in Liberal Arts on the Balkans

1. Introduce project lines
2. Combine teaching and research
3. Collect output for a ratchet effect
4. Connect other third-party funding
